Graduate in Informatics Engineering | Full Stack Web Developer
As a Fresh Graduate of Batam State Polytechnic with a major in Informatics Engineering, I specialize in web development, particularly backend programming. I have strong expertise in frameworks like ExpressJS and ReactJS, and I am passionate about delivering efficient, scalable solutions. A proactive problem solver, I thrive in collaborative, cross-functional team environments, consistently driving projects to successful completion.

Education Level

Batam State Polytechnic   Aug 2021 – Aug 2024

Diploma in informatics engineering, 3.61/4.00

Work Experiences

Mentor Technical Web at Infinite Learning Indonesia – Nongsa Digital Park   Jun 2023 – Des 2023
contract

- As the Chief Technical Mentor, I work closely with my fellow Mentors on development, curriculum creation, and other work.

- As a technical mentor, I taught my mentee how to create a website properly using HTML, CSS, Javascript and also with ReactJs. and I also taught my mentee about backend with ExpressJs Framework with MySql database.

- Developed a cutting-edge programming and web development curriculum tailored to current industry standards. Trained fresh graduates, junior developers, and mentees to enhance their skills, ensuring they become proficient Web and UI/UX Developers.

- Produced high-quality web developers from both IT and non-IT backgrounds through comprehensive training programs.

- Actively involved in various educational initiatives, including Bootcamp Frontend Web Development, Man IC Batam Students, and SMK 1 Batam Teachers training programs.

- Ensured students gain essential knowledge and skills, commit to continuous learning, and effectively convey their expertise.

Lead Mentor Web at Infinite Learning Indonesia – Nongsa Digital Park   Feb 2024 – Aug 2024
Contract

- Served as Lead Mentor for Technical Web at Infinite Learning Indonesia, strategically planning training activities for Kampus Merdeka program and external projects for approximately 5 months.

- Planned and led activities conducted for Front end Web development training with recent graduates, workers, and students at Infinite Learning.

- Conducted meetings with managers and leaders to discuss plans for the next few months to discuss training, courses to be used, and whether it is necessary to adapt the latest technology

MSIB Red Hat & IBM A.I at Infinite Learning Indonesia - Nongsa Digital Park Batam
Interns

- As a mentee I learned in depth the use of Linux commands. Learning to manage data management through RedHat Linux, we also created a Container. Implementing AI to create a Chatbot using Watson Assistant and Watscon Discovery.

Batam State Polytechnic - Batam   Aug 2021 - Jan 2023

Project Based Learning

- Front-end Development: I use HTML, CSS, JavaScript, and bootstrap to build the look and interaction of websites.
- Back-end development: I use PHP programming language with codeigniter framework and I also use Mysql database to store data.

Certificate And Projects

- **Projects** ✓ (2023): Chatbot Implementation of IBM Watson Assistant
- **Projects** ✓ (2023): Implementation of Trufflehog for Web-based crendesial detection
- **Projects** ✓ (2023): Creation of Extracurricular Management System SMA NEGERI 8 BATAM
- **Hard Skills** ✓ (2023): Sololearn React Js
- **Hard Skills** ✓ (2023): Sololearn SQL Intermediate
- **Hard Skills** ✓ (2022): Sololearn ExpressJs
- **Hard Skills** ✓ (2022): Sololearn Javascript
- **Hard Skills** ✓ (2023): IBM Artificial Intelligence Practitioner
- **Hard Skills** ✓ (2023): IBM Cybersecurity Practitioner

- **Hard Skills** ✓ (2023): IBM Enterprise Design Thinking Practitioner
- **Hard Skills** ✓ (2023): Red Hat Enterprise Linux
- **Hard Skills** ✓ (2023): RHCSA
- **Hard Skills** ✓ (2023): Python for Data Science
